

CANCER CARE VISITOR RESTRICTIONS

St. Elizabeth Healthcare is closely monitoring the evolving coronavirus (COVID-19) activity, and in an abundance of caution and until further notice, we are temporarily adjusting our policies in order to protect the health of our patients, volunteers, associates, physicians and community.

Effective on March 17, 2020, we are restricting visitors to all Cancer Care Departments.

NO VISITORS will be admitted into any clinical setting, unless:

- A single individual who is responsible for assisting a patient in a walker/wheelchair, is the patient's primary caregiver, assisting with special needs or medical decision making such as a POA.

No one under the age of 18 will be allowed.

Visitors are not permitted if they exhibit any respiratory illness symptoms (coughing, sneezing, runny nose, fever, etc.)

We recognize that these restrictions can be disappointing to our patients and visitors, and we apologize for any inconvenience this may cause you or your family. The health and safety of you, our patients and care team are our top priority during this heightened time of illness.

We encourage you to use FaceTime, Skype and phone calls to visit with loved ones in the hospital. Should you need assistance with this, please let a staff member know.
