

Junior Board Committee

The St. Elizabeth Foundation's Junior Board Committee was created for the next generation of philanthropists to learn and grow while also supporting the organization's work to advocate for St. Elizabeth Healthcare.

The Junior Board Committee offers young professionals the opportunity to make a positive impact on the community while networking, attending social events and sharing their talents through volunteer opportunities and strives to create opportunities for young professionals in the region to connect with peers, enhance their professional development and impact the community through diversity and inclusion.

Junior Board Committee Members are 21 – 40 who support the mission of the St. Elizabeth Foundation while growing their network, making personal connections, and developing professional skills. Members are committed to becoming champions for St. Elizabeth Healthcare and helping to support the community through their involvement with Foundation events and meetings.

Members can expect to:

- Expand professional and social networks for young professionals
- Connect with young professionals with quality programming and events to support growth & development
- Engage other young professionals in the community with a goal to make a difference in their companies and the region
- Network and learn from business leaders within the St. Elizabeth Foundation committees and access professional development opportunities
- Volunteer in various Foundation events and meetings
- Membership is free and there is no minimum time commitment.

Active Member Involvement

- Encouraged to attend 4 Committee meetings and 1 Full Foundation meeting a year
- Members are responsible for staying updated on Committee matters and communications
- Volunteer for at least one event, per year
- Connect the Foundation with sponsors and community members interested in supporting our events
- Assist in new member recruitment
- Create stewardship among donors
- Serve as ambassadors of the Foundation and spread St. Elizabeth Healthcare's message in the

Community
