

If your arteries could talk, they'd tell you to schedule a screening.

The St. Elizabeth CardioVascular Mobile Health Unit offers a series of simple tests to help determine if you're at risk of heart and vascular disease. You'll receive your initial results right away along with a one-on-one discussion with a health educator on actions you can take to address your risks. See our schedule below and call for your appointment today. After all, it might just save your life.

Screenings are \$25 each. To schedule an appointment, call 859-301-WELL (9355). Ask for your BONUS atrial fibrillation screening at no cost when you schedule.
