

Heartsaver® Bloodborne Pathogens Training

The Heartsaver Bloodborne Pathogens course teaches students how to protect themselves and others from being exposed to blood or blood-containing materials. This course is designed to meet Occupational Safety and Health Administration (OSHA) requirements for bloodborne pathogens training when paired with site-specific instruction. This curriculum reflects science and education from the *American Heart Association Guidelines Update for CPR and Emergency Cardiovascular Care (ECC)*.

Who Should Take This Course?

The AHA Heartsaver Bloodborne Pathogens Course is designed for anyone with a reasonable chance of coming into contact with bloodborne pathogens such as: Correctional Officers, Childcare workers, Security guards, Maintenance workers, School personnel, Hotel housekeepers, Health and fitness club staff, and Tattoo artists.

What Does This Course Teach?

This course uses the PACT acronym (Protect, Act, Clean, Tell) and tagline, “Make a PACT, Know How to Act™,” to help students learn and easily recall bloodborne pathogens training.

Students Learn How To:

- Protect themselves from blood or blood-containing materials
- Act quickly and safely
- Clean the area that has blood or blood-containing materials
- Tell their supervisor about the incident

Features:

- Students can complete at their own pace at work, home, or wherever Internet access is available
- Certificate of completion available to print
- Access to all information in the online portion for 12 months after activation of their key to help reinforce what they have learned
- Includes audio and transcript for students who may have a hearing or visual disability

Course Completion: Format eLearning - this course can be completed 100% online at a learner’s pace

Time Required: The online portion can be completed in 1 hour

Course Completion Card: Students can access downloadable Participation Certificate upon course completion
