

HeartSaver Pediatric First Aid CPR AED

What does this course teach?

- First aid basics
- Medical emergencies
- Injury emergencies
- Environmental emergencies
- Injury and illness prevention
- Controlling bleeding & bandaging
- Adult CPR and AED use
- Child CPR AED and Infant CPR
- Infant and child choking

The HeartSaver® Pediatric First Aid CPR AED course trains participants how to respond to and manage illnesses and injuries in a child or infant in the first few minutes until professional help arrives. This curriculum reflects science and education from the *American Heart Association Guidelines Update for CPR and Emergency Cardiovascular Care (ECC)* and the *2020 AHA Guidelines for First Aid*. The AHA HeartSaver® Pediatric First Aid CPR AED Course is designed for anyone involved in childcare including: childcare workers, teachers, camp counselors, etc.

Description

HeartSaver® Pediatric First Aid CPR AED provides students the highest quality training in the lifesaving skills of first aid, CPR, and use of an AED. This course empowers students to act with confidence in the event of an emergency at work, home, or in the community. Students who successfully complete the online course and skills session, will receive a HeartSaver® Pediatric First Aid CPR AED Course Completion card, valid for two years.

HeartSaver® Pediatric First Aid CPR AED is available in two different training methods – blended learning and classroom training. Both HeartSaver® Pediatric First Aid CPR AED course options teach the same AHA science-based skills and result in the same AHA Course Completion Card.

- **Blended Learning** – Students complete online HeartSaver® learning modules followed by hands on skills session. Students must complete hands-on skills session with an AHA Instructor to complete certification.
- **Traditional Classroom** – This certification course is Instructor led with a practice-while-watching AHA video format that includes focused skills learning and assessments throughout the program.
