### Wheelchair Training

#### **Transporting Guests by Wheelchair**

**POLICY:** It is the policy of St. Elizabeth Healthcare to provide a uniform method of transporting guests by wheelchair.

- Volunteers may provide simple wheelchair transport for guests after receiving training.
- Volunteers should consider individual guests. Any volunteer may choose to not provide wheelchair transportation for any guest that is too difficult for them to transport (such as obese).

# **Transporting Guests by Wheelchair Two Types of Wheelchairs** KE

1. Bring wheelchair to the guest and secure in locked position.

#### A.I.D.E.T.

Acknowledge/Introduce:

Good morning Mr./Mrs. (<u>their name</u>). My name is (<u>your name</u>) and I will be transporting you to (<u>destination</u>).

- 2. Raise footrests and pads so the guest may easily get into the wheelchair.
- 3. Guests must be able to get into the locked wheelchair unassisted.
- 4. Arrange the footrests to position of comfort for the guest.

- 5. Release wheelchair brakes.
- 6. Proceed to destination.

#### A.I.D.E.T.

**Duration:** 

It should only take a few minutes for us to reach <u>(destination)</u>.

- 7. Keep to the right of corridors.
- 8. Proceed with caution at intersections and doorways (use overhead mirrors to watch for others when turning corners).

9. Back the guest onto the elevator so that they are facing the doors of the elevator.

#### A.I.D.E.T.

#### **Explanation:**

We will be arriving at <u>(destination)</u> in just a moment. When we arrive, please remain seated while I put the wheelchair brakes on and adjust the footrests so you can safely exit the chair.

10. After the guest reaches their destination:

- Lock the wheels of the wheelchair
- Raise the footrests
- Let the guest exit the wheelchair unassisted

#### A.I.D.E.T.

#### Thank You:

Thank you for choosing St. Elizabeth! Have a good day!

11. Return the wheelchair to its designated area.

#### 12. Sanitize wheelchair.

- o Wheelchairs should be sanitized after <u>each</u> use
- Volunteers should <u>wear gloves</u> when using sanitation wipes
- Please use sanitation wipes found in the container with a <u>purple lid</u>
- o Wipe down handles, seat, arm rests and leg rests

• If a wheelchair has been soiled beyond what could be cleaned with a sanitation wipe, please call Patient Transport and remove chair from use by guests

#### **Other Pertinent Information**

- If items are found on wheelchairs, such as blankets, pillows or personal items, please remove chair from area of guest use and call Environmental Services (Housekeeping).
- If oxygen tanks are found on wheelchairs please remove chair from area of guest use and call Patient Transport.
- If your volunteer area is low on available wheelchairs you may call Patient Transport to request more (if available) or, if able, look for wheelchairs in other areas.

# 1) *True or False?* A volunteer has the right to decline to provide a wheelchair transport for any guest that is too difficult for them to transport.

## 2) *True or False?* The first step you should take when offering a wheelchair to a guest is to secure the wheelchair in a locked position.

#### 3) Which of the following statements is false:

- a) Volunteers providing escorts should keep to the right of corridors.
- b) It is optional for Volunteers to use overhead mirrors when turning corners.
- c) When on an elevator, guests should be facing the doors of the elevator.
- d) Guests should be able to get into the locked wheelchair unassisted.

#### 4) *True or False?* If items such as blankets, pillows or personal items are found on wheelchairs, volunteers should contact Environmental Services.

### 5) *True or False?* Wheelchairs should be sanitized after each use.

#### **Competency Review**

**Note:** Certain volunteer positions require Volunteers to demonstrate competency in providing a wheelchair transport. These volunteers will be notified by the Volunteer Office of the requirement and a time for the competency review will be arranged.
