Endoscopic Spine Surgery:
An Ultra Minimally Invasive Technique
Wednesday, December 2, 2026 | 6:00 PM - 7:00 PM
Shahed Elhamdani, MD, Neurosurgeon

REGISTER

Learn how endoscopic spine surgery is used in the treatment of spinal conditions with benefits of small incisions, reduced tissue disruption, and fast recovery times.

In this webinar, Dr. Elhamdani will explain the endoscopic spine surgery technique, discuss which conditions can be treated and who may be a candidate for surgery.

Speaker Profile

Shahed Elhamdani, MD | Neurosurgeon, Mayfield Brain & Spine

Dr. Elhamdani joined Mayfield in August 2026 after completing advanced fellowships at Cedars Sinai Spine Center in Los Angeles and Alleghany Health Network in Pittsburgh. He sees patients at Mayfield's office in Crestview Hills, Ky., and performs surgeries at St. Elizabeth Healthcare's Edgewood Hospital. He brings advanced training in endoscopic spine surgery and motion preservation surgery, as well as the full range of treatment of spinal disorders.
